

### **We Help Protect Your Most Valuable Asset—Your Workforce.**

Work-related injuries and illnesses can have significant financial impacts on any business. In small businesses, though, employees are like family; above all else, you want to keep your family safe. But OSHA and other state and federal health and safety regulations can be difficult to understand and implement, and it's always a challenge to find the time to travel to health and safety courses and workshops outside of your geographical area.

keep your family safe.*

---

IES helps our clients create safer and more secure workplaces by offering health and safety training onsite. Our safety experts come to your facility, on your schedule, to provide workplace safety and health training for your employees and/or management team.

Some of our most in-demand onsite services and programs include:

- Written Policy and Program Review
- Hazard Awareness and Identification
- Job Hazard Analysis Development
- Accident Investigation Training
- Disaster Preparedness and Emergency Planning
- Ergonomic Assessments
- HAZWOPER and Hazardous Materials Training

### **We Know That Your Workplace is Unique.**

Other workplace safety topics such as Hazard Communication, Lockout/Tagout, Fall Protection and Prevention and Ergonomics can be customized to provide the best and most relevant instruction for your team, designed with your unique environment in mind. If you don't see the topic you're interested in listed, don't worry—we can design and deliver training suited to your needs.

## **Trust the Industry Experts.**

The mission of IES is to help organizations grow, innovate and prosper. We understand that in order for our clients to realize their full potential, they must first ensure the safety and security of their workforce; that is why we work across the private and public sectors to help organizations reduce injuries and illnesses in the workplace and support your regulatory compliance requirements.

As the engineering-based, solutions-driven, client-focused unit of NC State University, we bring the diverse professional experiences of our improvement specialists together under the roof of a major research university, ensuring that the training you receive is both cutting edge and evidence based.

Put our experts to work for you—get in touch today to learn how we can help.

Industry Expansion Solutions
